Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-75 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of the independent claims, the phrase "determining a pattern" is vague and indefinite since it is not clear what pattern is being determined. What is forming the pattern and what type of pattern is being formed? Claims 2, 19, and 51, are indefinite since they claim "assuming a value" yet are dependent from claims in which that value is "ascertained". Ascertained or ascertaining implies determining a fact, not making an assumption. Therefore, the claims are contradictory. Claims 6, 23, 59, 67, and 69 are all alternative and indefinite.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-75 are rejected under 35 U.S.C. 102(b) as being anticipated by either one of Saban or Reedy.

See especially column 12, lines 10-45 of Saban and column 4, line 40 – column 8, line 60.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tsang, Bessacini, and Caputi, Jr. is cited as being of interest since they disclose target tracking systems.

6. Applicant's response, filed 11-18-02, has been carefully considered but is not considered persuasive. The Examiner maintains that the use of the phrase "determining a pattern" is indefinite as used in the claim. The claim language fails to provide sufficient elements or steps to make clear the limitation being claimed. It is not clear what is being categorized into a pattern, or what determines that a pattern has been found. The rejection concerning "ascertaining" is also maintained. A final result could be "ascertained" in a process which involved "assuming" some intermediate value in a process. However, it is improper to try to limit a value which is already claimed as being "ascertained" to an assumed value, because "ascertaining" does involve experimentation or examination. Webster's II New Riverside University Dictionary, 1988, defines "ascertain" as: 1. To discover through experimentation or examination. 2. *Archaic*. To make certain. In view of the indefiniteness of the claims, the prior art is believed to anticipate the claim language.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
